SESSION-2023-24

Wild Edible vegetable Festival

Organizing Department: Tahsil Agricultural Department, Saoli

Collaboration: Botany Department, RMG College Saoli

Number of Participant: 80

Venue and Date: Tahsil Conference hall Saoli, 14/08/2023

Introduction:

Vegetables that grow naturally without any cultivation or care are called wild vegetables. These plants mainly grow in forests, wilderness, edges of farmlands, and barren fields. In the early days of the monsoon season, these vegetables are available for consumption. Along with being vegetables, a majority of them are also medicinal plants. Most of the popular vegetables that we know of are recent introductions in our kitchens. Indians have been eating wild vegetables for thousands of years, but unfortunately, we lost the track somewhere at the dawn of modern times. Tribals and rural Indians still value these wild vegetables. An interesting fact is that some wild vegetables have a dedicated cult following in urban areas & big cities where they are sold in special markets.

Importance of Wild Edible vegetable Festival:

Though plants have been used as a source of food, fodder, shelter, clothing, medicine and a verity of helpful commodities from earliest time, the value of wild edible plants in food security has not been given adequate attention in India. Wild edible plants are the precious gift from our nature and most of the ethnic communities strongly depend on it for their day to day life. Wild vegetables are

available locally and therefore inexpensive for low income sectors of the economy. They are good sources of important nutrients, which play significant roles in nutrition, food security and serve as supplements for the management of nutrition related illnesses. Food plants are not only supplement to the food quality, but also an important option during starvation for survival and thus makes significant contribution to the human nutrition throughout the year

Program Organized by Department of Botany:

Department of botany organizes wild vegetable festival in collaboration with agriculture department of Saoli tahsil, Saoli. Villagers all around Saoli participated actively, several villagers brought wild vegetables and kept in exhibition. They told benefits of the wild vegetables as well as information regarding their growth and cultivation. There were lots of vegetables brought by local people some of them were Patur, Gophan, Tarota, Vaste, Randhopa, Ambadi, Kadubhaji, Kuda etc. Mrs. Ashwini Godse, Taluka Krishi Adhikari organized the program , Ranjit Yadv (IAS) , deputy collector were chief guest and Prof. Devlal Watakhare were chief spokesperson. Hosting of the program was done by Asha Shinde Assistant, Vote of thanks was given by Mr.Kale agriculture Assistant,Saoli.
