

A REPORT ON

“Intellectual Property Rights: Patent’s and Design Feeling”

Held on 10th March 2023

Coordinated by,

- 1. Prof. Devilal N. Watakhare**
- 2. Dr. Sachin S. Choudhari**

Organized by,

**RASHTRAPITA MAHATMA GANDHI ARTS, COMMERCE AND
SCIENCE COLLEGE SAOLI**

A. Introduction:

Intellectual Property Rights (IPRs) are a set of exclusive rights protected by law which are permitted to creators or persons over their creations for a certain time period. Intellectual property is the product of the human intellect including creativity concepts, inventions, industrial models, trademarks, songs, literature, symbols, names, brands, etc. Intellectual Property Rights do not differ from other property rights. They allow their owner to completely benefit from his/her product which was initially an idea that developed and crystallized. They also entitle him/her to prevent others from using, dealing or tampering with his/her product without prior permission from him/her. He/she can in fact legally sue them and force them to stop and compensate for any damages. An IP right holder can realize value from its intellectual assets through utilizing it internally for its own processes or share it externally through provision of goods and services to customers. The latter can be achieved through legal mechanisms such as licensing or assignment. In today's globally competitive environment, intellectual property has placed itself on a pedestal in the context of economic growth and is becoming increasingly important. Intellectual Property (IP) is the fuel that powers the engine of prosperity, fostering invention and innovation. The increasing significance of intangible assets in the global economy is forcing business organizations to actively manage their IP as a key driver for building and sustaining their competitive advantage and achieving superior performance. IPRs are now being used not only as a tool to protect creativity and generate revenue but also to build strategic alliances for socio-economic and technological growth. Accordingly, in order to foster the protection of innovations and creativity, the Intellectual Property Office under the Ministry of Commerce and Industry is dedicated to mobilize the use of such technological advancement for the economic development of the country. The generation of IP largely takes place at the State level through small, medium and big industries, academic institutions and individuals. Most States have not yet evolved their IP strategies and ecosystems in terms of effective facilitating services for all sectors including MSMEs and start-ups, creating awareness, conducting training programs, systems for utilization of IPR etc. States need to maximize the benefits from their intellectual property by stimulating higher levels of innovation through a judicious system of rewards, ensuring timely and effective legal protection for IP.

B. Objectives

- The main objective of the training program is to increase IP filing awareness into higher education institutes and thus building a robust IP ecosystem in the states of India.
- To assist HEIs in creating/developing a Strong IP ecosystem thereby, transforming it into an attractive investment destination for the Industries.
- To sensitize the clusters about Intellectual Property Right and their protection.
- To identify protectable innovations.
- To suggest steps for application for patents and copyrights
- To use IP information, particularly relating to patents and designs, for further research and development in developing new product and process.
- To give information about IPR regional centers and offices to HEIs

Brief Summary of Workshop:

Sensing the importance for the protection of Intellectual Properties in today's globalizing knowledge based economy, Rashtrapita Mahatma Gandhi College Saoli in association with Rajiv Gandhi National Institute of Intellectual Property Management (RGNIIPM) Government of India, Nagpur (Under National Intellectual Property Awareness Mission) organized a one-day Online workshop on "Intellectual Property Rights: Patent's and Design Feeling" on 10th March 2023. The Chief Resource person was **Mrs.Pooja V. Maulikar** (Examiner of Patents & Designs, RGNIIPM Nagpur). Inauguration of the programme was done by Dr.A.T.Khobragade (Principal RMG COLLEGE SAOLI), Programme hosting was done by Dr.S.S.Choudhary. The introduction of speaker was given by Dr. R. A. Markandewar. Total 326 participants were attended the program. Participants are from various fraternity which includes Teachers, UG students, PG Students etc. Technical session includes the various topics such as IPR, Patents, Copyrights and how to apply for Patents and design feeling. The workshop was concluded with the vote of thanks given by Mr.D.N.Watakhare. Participants gained new information about IPR.
